Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 3-4 generic claims 1 and 25-26 drawn to a cash dispensing system featuring a blocking gate, classified in class 221, subclass 153.
 - II. Claims 5-10 and 24 & generic claims 1-2 and 25-26 drawn to a cash dispensing system with a platen for supporting a transport, classified in class 221, subclass 285.
 - III. Claims 11-23 and 27 & generic claims 1-2 and 25-26 drawn to a cash dispensing apparatus featuring a removable portable dispensing cassette, classified in class 221, subclass 186.
2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as independently blocking dispensing through a dispensing outlet. See MPEP § 806.05(d). In the instant case, invention II has separate utility such as moving conveying documents to an alternate dispensing port. See MPEP § 806.05(d). Invention III has separate utility such as providing a vessel for relocating checks between locations remotely controlling equipment and communicating to satellite dispensers. See MPEP § 806.05(d).
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the

Art Unit: 3653

inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Claims 1 and 25-26 lack sufficient detail of the restricted inventions so as to constitute a generic claim and may be examined with any of groups I, II, or III. Claim 2 lacks sufficient detail of the restricted inventions so as to constitute a generic claim and may be examined with either of groups II, or III.
5. No claims appear to be linking claims.
6. Several claims are subject to rejoinder contingent upon their dependence from an allowable base claim.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Exmr. Michael E. Butler whose telephone number is (571) 272-6937.
